Thank you!

My name is Henry Gregg. I like coming to Hutton House. I've been coming for almost 9 years. I've done one-on-one tutoring and this year I tried a group class for the first time. I also volunteer.

I had never used a computer before and now I can use the computer without much help. I'm able to read stories on the computer and answer questions without making a mistake. I've gotten better at writing and have written several stories that were published by Hutton House.

Thank you for supporting the golf tournament and the Adult Education program at Hutton House.
